

ROOP PAVAN

Hyderabad, India | rooppavan2816@gmail.com | +91-7286039599

PROFESSIONAL SUMMARY

Software Engineer with 1+ years of experience in Python backend development, REST API design, and automation engineering. Proven expertise in building scalable Fast API services, implementing CI/CD pipelines with GitHub Actions, and developing RPA automation frameworks. Strong foundation in system integration, data migration, and collaborative Agile development. Seeking to leverage technical skills and problem-solving abilities in challenging engineering roles.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, SQL, Fast API, RESTful APIs
- **APIs & Integration:** OAuth 2.0, JWT Authentication, JSON
- **Automation & Testing:** Selenium, RPA Automation, BeautifulSoup, YAML Configuration Frameworks
- **Databases:** SQL Server, MySQL, Query Optimization, Data Migration
- **DevOps & Tools:** GitHub Actions, Git, Docker, CI/CD Pipelines, Visual Studio Code, Postman
- **Methodologies:** Agile/Scrum, JIRA, Confluence, Code Reviews
- **Additional:** Salesforce CRM (Accounts, Cases, Reports), Web Scraping

PROFESSIONAL EXPERIENCE

Software Support Developer

March 2024 – Present

South Star Software Pvt Ltd

Mumbai, India

- Architected and deployed Python backend services using **Fast API**, improving API response time by implementing efficient data handling and query optimization strategies
- Designed **RESTful APIs** with OAuth 2.0 and JWT authentication, enabling secure cross-system integrations and supporting mission-critical data exchange workflows
- Built **CI/CD automation pipelines** using GitHub Actions with matrix-based execution, automated validation, error handling, and environment-specific deployments, reducing deployment time by 40%
- Developed configuration-driven automation frameworks using **YAML**, creating reusable, scalable automation flows that handle complex business logic and multi-step processes
- Engineered **RPA bots** using Python and Selenium to automate enterprise workflows, implementing robust error handling, dynamic XPath resolution, and retry mechanisms for improved reliability
- Implemented **API-driven data migration** workflows to synchronize configuration and metadata between Git repositories and SQL Server databases, ensuring data integrity and consistency
- Integrated multiple third-party APIs for order processing and data synchronization, implementing idempotent operations, fallback logic, and structured logging for enhanced system reliability
- Optimized SQL queries for data extraction and reporting, improving query performance and supporting automation metadata management across multiple databases
- Collaborated with cross-functional teams (QA, DevOps, Product) in Agile/Scrum environment, participating in sprint planning, code reviews, and delivery of high-quality features within tight deadlines
- Maintained version control using Git/GitHub with clean commit practices, comprehensive pull request reviews, and controlled multi-environment promotion strategies

Salesforce Administrator

Nov 2024 – Present

South Star Software Pvt Ltd

Mumbai, India

- Gained hands-on experience with Salesforce CRM, managing Accounts, Opportunities, Cases, and custom Reports
- Supported duplicate management and case workflows, including bulk operations and data validation processes
- Learned Salesforce concepts through Trailhead modules while supporting real-time workflows.
- Assisted with duplicate management, case handling, and data validation processes.

EDUCATION

Bachelor of Engineering in Electronics and Communication

2020 – 2024

St. Martin's Engineering College, Hyderabad | CGPA: 7.3/10

ACHIEVEMENTS & CERTIFICATIONS

- **Recognized for Initiative:** Awarded for proactively identifying and resolving potential system issues early, ensuring stability and quality in critical deliverables
- **Team Player Award:** Recognized for collaborative problem-solving and successfully resolving complex technical challenges with cross-functional teams under tight deadlines
- **Quality Assurance Testing Certification** – VCUBE Software Solutions
- **HVAC Design and Drafting Project** – NIIT Certification (NSDC & Magic Bus India Foundation)
